Office Action Summary	Application No. 10/639,442	Applicant(s) GOLDWASSER, BENAD	
	Examiner Jeffrey G. Hoekstra	Art Unit 3736	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/16/2006 has been entered.

Information Disclosure Statement

2. The information disclosure statements (IDS) submitted on 06/28/2006 and 07/18/2006 are acknowledged. The submission is in compliance with the provisions of 37 CFR 1.97 and 1.98. Accordingly, the examiner is considering the information disclosure statements.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-7 and 11-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Choy (US 3,895,637).

Art Unit: 3736

5. For claims 1, 11, and 15-16, Choy discloses a gastrointestinal apparatus (10) and method of use thereof, comprising: a guidewire (17) configured for introduction through a rectum of a subject having a distal stop (32); a gastrointestinal tool (18) formed with a bore for inserting guidewire; and an inflatable device or sleeve (19) operably equipped for inflation via a channel (16) and configured to pull said guidewire away from said rectum and through a colon of a subject (column 1 lines 48-54).
6. For claims 3-4, 7, and 12-13, Choy discloses sliding a gastrointestinal tool comprising an imaging viewing device (column 1 lines 10-16) with a chamfer (as best seen in Figures 1-4) over said guidewire.
7. For claims 5, 6, and 14, Choy discloses a catheter (column 1 lines 5-10) slidably engaged over a guidewire wherein the catheter has a lumen for the introduction of medical instruments and fluids (column 1 lines 10-16 and 48-54).

Claim Rejections - 35 USC § 103

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. Claims 8-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Choy in view of DeMarco (US 5,353,807). Choy discloses gastrointestinal apparatus for imaging and treatment having distal tools except for explicitly disclosing a tool comprising a cutting, sampling, and/or magnetic device. DeMarco teaches a

gastrointestinal apparatus comprising a catheter with cutting, sampling, and magnetic devices (column 1 lines 5-53). It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the gastrointestinal apparatus as taught by Choy, with the diagnostic and treatment devices DeMarco for the purpose of performing gastrointestinal procedures on tissue in vivo.

Response to Arguments

10. Applicant's arguments with respect to claims 1-16 have been considered but are moot in view of the new ground(s) of rejection.
